stress reliever. Minit is a lovely action adventure game in the vein of the old Zelda games. This is pretty much the only game where the time limit is actually a fun and enhancing feature. It really makes you pay attention to your surroundings as there are only so few places that you can visit in such a short time. And when you finally figure it out, it feels immensely satisfying. Minit is a masterpiece in game design. 5/5

Pros:

- While the game world is small, it is filled to the brim with secrets
- Every screen feels unique
- Great soundtrack
- Just plain fun

Cons:

- It is only like, heh, a minit long. Woa, I really like the sound effects and the classic style graphics. Easy and fast intro, that takes me straight into the fightings (and taco making). Immensely fun!. I bought this game for \$2 on sale, so in that sense, it's worth the money.

In a nutshell, build structures, spam click to produce resources that will let you build more structures...and that's the game.

It's not terrible, but can't recommend this one...unless it's on sale again.. A quality game beat it in time shown and will probably return to play it again at a later date.

All puzzles give stisfaction after you beat them and it was fun to figure them out.

I would say that the only downside is that there isnt more, so more levels would be apreciated. other than that 9.9/9. you end up doing some lame maze stuff instead of playing pinball the whole time

---

where's the bloody tutorial/step-by-step guide? hardcore too much maybe?. one of the most beautiful, thought-engaging visual novels i have ever read

as a forewarning, the story can be slow to some. for me, the world seabed has created for itself is so breathtaking, so magical, that the slow pace of it all never bothered me.

absolutely lovely novel centered around the relationship between two women, give it a chance if you're interested in girls love or mysteries. A bunch of pretentious drivel. The game trys to be deep and phylosphical, but it just ends up been slow, boring, and cheesy. The ending is terrible. The pacing is slow and dull. Plan on just 30-40 minutes of walking with cruise control while having terrible poems recited to you by a monocrome voice actor.

I do appreciate that this game is trying to be something different, and for that it deserves praise. It just fails to be interesting or engaging. I found myself 2-3 times browng the web on my phone while my character was on walking cruise control.. Anyone remember Motor City Online? I get the same feeling playing this game, it has a TON of potential and I've been enjoying my time so far. Well worth the price aslong as you don't go in to this game thinking its like CMS because it is not.. I havent even play with this dlc yet cuz it came out like 20 minutes ago but i bet its good lol. The artwork is really good, but the gameplay is annoying. Completed the first puzzle eventually, stuck on the second, asked for a refund.

Have to wonder what the developers were thinking.. easy casual game with various versions of mahjong

79V100. too anyone out there plz wait for the full game it take me a lot time waste it take so long to long the f\$\$\$ing game. fun lil game, defo worth a look
