

can't help but catch the battlefield below, sprawled out beneath you like some comic child's gameboard. As you take in the sight of Ani-Powerededs battling Disembodied Powerededs battling NatRes Powerededs, your heart suddenly begins pounding. How can they not understand, how can they not see that...

This thought escapes you, however, as the emotion suddenly begins draining from your chest. It isn't long before you feel...nothing. No, not nothing. You feel a void, a shrinking of space, one that only has room for outrage. And righteousness. And hate.

No, you think. Less is trying to turn you into one of The Voiceless with her Powers, draining all of your empathy. Looking down, you see the yellow energy flickering across your chest and know you have to do something to stop this. Now.

"Scorpamaroo, mind your Powered battle strengths when facing off against Less," MeChip Prodigal warns, appearing in martial-arts gear. "In concert with your Kung Fu skills, of course!"

- Create some distance between Less and myself by using a circular Crane evasion movement.
- Knock Less off balance using a charging Tiger attack.
- Distract Less with a quick Leopard strike to one of her soft-tissue vital areas.
- Rebalance the fight with a coiled Snake spin to break away from Less.
- Use my scorpion tail to mimic a Dragon-tail kick.
